KENTON CO. 4-H LIVESTOCK CLUB

Welcome!

Kenton County 4-H Livestock Club is for anyone with an interest in agriculture! Components of the club include educational meetings, the country ham project, the livestock judging, skill-a-thon, and quizbowl teams, and livestock projects.

Club Meetings & Ed. Hours

Check out our club meetings and education hours! More club meetings may be announced later. You don't need education hours to be part of the Livestock Club—but if you'd like to participate in livestock judging, the country ham project, or show an animal, you'll need 6 education hours with a certified livestock volunteer.

If you are planning to show livestock at the Kenton Co. Fair:

- A parent must attend one parent session. Sessions are held at the start of any education hour meeting.
- 6 hours must be completed by January 18th.

Any changes made to this schedule will be posted in advance in the newsletter, and emailed as well. In case of inclement weather, class cancellations will be emailed, communicated through TeamReach, and posted on social media.

4-Hers are encouraged to attend extra meetings! This year's classes are fantastic, and we'd love to see you there!

Date	Day	Time	Hours	Topic	Location
Oct. 25th	S	9:00-12:00	3	Poultry Processing	Barn (at MR)

HOW TO RESERVE A ROOM FOR YOUR CLUB MEETING AT THE EXTENSION OFFICE BUILDINGS

- 1 Contact the office by phone or email and request a date, specify which building your club will need.
- 2 The size of the group and planned activity will help to assess the space needed.
- 3 When scheduling a time, please allow for set up and clean up, adhering to availability of time requested.
- 4 4-H Clubs are permitted to schedule meeting spaces 30 days in advance. Please remember to cancel if your meeting is cancelled.
- 5 Groups with 4-H youth must be supervised by adults 18 years of age and older. 4-H volunteers are required to be background checked.
- 6 Reservation forms and meeting room set up forms are available on the Kenton County Extension website and available at both buildings.
- 7 Rooms are used extensively and please be aware rules & guidelines will change based on current health & safety protocols.
- 8 Please be advised this a summary of an 8-page document and is not a comprehensive set of guidelines.

6 HORSE EDUCATION HOURS REQUIRED

Youth obtain horse education hours through their 4-H horse club meetings. Each youth who wishes to participate in the horse program is strongly encouraged to join the horse club.

The horse club meets at the Serpentine River Farms, 10217 Locust Pike, Ryland Heights, on the 2nd Thursday of each month at 6:30 p.m. However, the meeting is Oct. 5 from 10am to 12 (noon).

Club Leader information: Leah Wilson, serpentinefarms@gmail.com, 859-380-8270; or Melinda Martino, melscurlyhorses@aol.com, 859-250-4364.

For more information contact Lori Clark at (859) 356-3155.

KENTUCKY 4-H ACHIEVEMENT ELIGIBILITY REQUIREMENTS, TIMELINE, INFORMATION

NEW FORMS/NEW PROCESS

Eligibility Requirements:

- Applicants must be active, enrolled 4-H members in good standing within their county and have participated in 4-H in Kentucky for at least one year.
- Applicants must have at least 6-hours of 4-H involvement within their county 4-H program for the year they are applying.
- Applicants must meet the age requirements for the Achievement level they are applying for.
- Youth who have turned 19 but were active, enrolled 4-H members in the previous program year are eligible to apply.
- All information in the application must be accurate and truthfully represent the 4-H member's involvement and experiences.
- If the application is found to be falsified, it will be disqualified.

WORKSHOP DATE: October 2 (Thursday)

6:00-8:00 pm

10990 Marshall Road

Or schedule an appointment time with Diane; dkelley@uky.edu

Kentucky 4-H Written Communication Contest

Entries for the Kentucky 4-H Written Communication Contest will be due March 25, 2026 by 4:30 pm to the Kenton County Extension Office, 10990 Marshall Road by 4:30 pm. A workshop will be held January 2026. If you would like an information provided by state please contact Diane Kelley at dkelley@uky.edu.

LIVESTOCK, HORSE, DOG, POULTRY, RABBIT CERTIFICATION

Contact Lori Clark if you are interested in serving as a certified horse, poultry, or rabbit volunteer, Anna Meyers if you are interested in serving as a certified livestock volunteer, or Diane Kelley if you are interested in the Dog certification. Certified volunteers must have completed CES Client Protection

NATIONAL 4-H WEEK

OCTOBER 5-11, 2025

4-H CROSS COUNTY LINES POLICY

Kenton County 4-H Council will address cross county lines concerns for the 2025-2026 program year during their regular November 17 meeting. All requests to exit or enter a program must be received in writing and turned in to Diane Kelley, at 10990 Marshall Road Location by 4:30p.m. on 11/17/2025. As a general rule, a young person becomes a 4-H member within the county where he/she is a resident or attends school. Participation close to home usually allows the young person and his/her family to become more fully engaged in 4-H and more actively involved in the greater community.

Generally, where a young person participates in 4-H becomes an issue when competition is involved; where a young person is a member becomes important to fair and ethical competition. It is assumed that a young person is a member of 4-H in the county of residence or county where the young person attends school. To compete as part of any other county's 4-H program, a transfer of membership must be clearly established through a request by the member, approval by the agents and councils involved and appropriate documentation. Determination of whether a young person may cross a county line is to be completed on a case by case basis by the agents and councils involved.

Everyone needs to Enroll

Don't Wait — Check the Date!

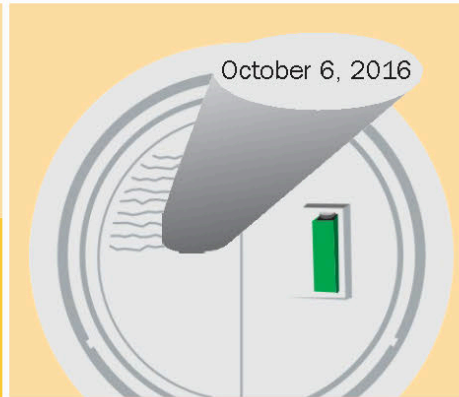

Replace Smoke Alarms Every 10 Years

Age matters when it comes to your smoke alarms.
Check the manufacture dates on your smoke alarms today!

1

Remove the smoke alarm from the wall or ceiling.

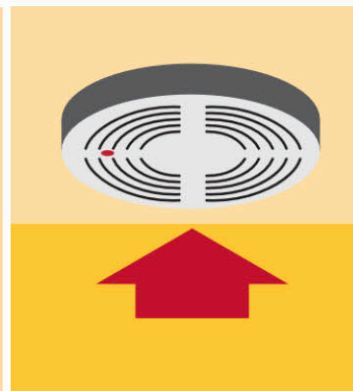

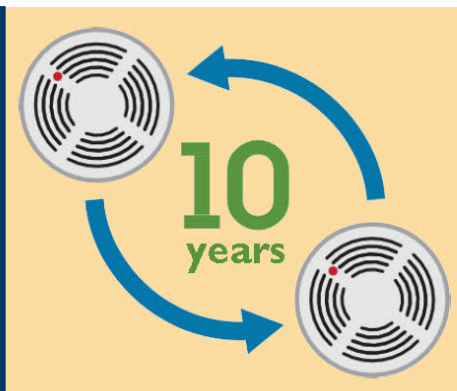

2

Look at the back of the alarm for the date of manufacture.

3

Smoke alarms should be replaced 10 years from the date of manufacture.

4

Put the alarm back on the ceiling or wall if it is less than 10 years old.

A closed door may slow the spread of smoke, heat and fire.

Test smoke alarms at least once a month by pushing the test button.

If the smoke alarm sounds, get outside and stay outside. Go to your outside meeting place.

Install smoke alarms in every bedroom, outside each separate sleeping area, and on every level of the home, including the basement. Larger homes may need more alarms. For the best protection, make sure all smoke alarms are interconnected. When one sounds, they all sound.

Call the fire department from a cellphone or a neighbor's phone. Stay outside until the fire department says it's safe to go back inside.

For more information about smoke alarms, visit usfa.fema.gov and www.nfpa.org

FEMA V-1013/May 2018

BE PREPARED FOR A WILDFIRE

**Wildfires can ruin homes
and cause injuries
or death to people
and animals.**

A wildfire is an unplanned fire that burns in a natural area such as a forest, grassland, or prairie.

Often caused by humans or lightning.

Can cause flooding or create problems with transportation, gas, power, and communications.

Can damage your property. Set up defense zones to protect your home.

Can happen anywhere, anytime. Risk increases with little rain and high winds.

IF YOU ARE UNDER A WILDFIRE WARNING, GET TO SAFETY RIGHT AWAY

Leave if told to do so.

Listen for emergency information and alerts.

If trapped, call 9-1-1.

Use N95 masks to keep particles out of the air you breathe.

Recommended Earthquake Safety Actions

Federal, State, and local emergency management experts and other official preparedness organizations agree that the actions described below will reduce injury and death during earthquakes.

In most situations, if you feel shaking or get an earthquake alert, immediately:

DROP where you are, onto your hands and knees. This position protects you from being knocked down and allows you to stay low and crawl to shelter if nearby.

COVER your head and neck with one arm and hand.

- If a sturdy table or desk is nearby, crawl underneath it for shelter.
- If no shelter is nearby, crawl next to an interior wall (away from windows).
- Stay on your knees; bend over to protect vital organs.

HOLD ON until the shaking stops.

- Under shelter: hold on to it with one hand; be ready to move with your shelter if it shifts.
- No shelter: hold on to your head and neck with both arms and hands.

If you are unable to drop to the ground, sit and bend over, covering your head and neck with your hands and arms. If you use a cane, keep it with you even if you go under a table to help you get back up. If you use a wheelchair or walker with wheels (a rollator), **LOCK** your wheels (or set the brake) and remain seated until the shaking stops. Always **COVER** your head and neck with your arms, a pillow, a book, or whatever is available and **HOLD ON** until shaking stops. For other accessibility recommendations see EarthquakeCountry.org/accessibility.

U.S. West Coast residents are encouraged to download the MyShake app to receive earthquake alert messages on their cellphone.

A small jolt might turn out to be the start of a large earthquake, so always protect yourself immediately!

If You Feel Shaking or Get an Alert:

If Possible

SECURE
OUR WORLD

4 **EASY** WAYS to stay safe **online**

Our online world needs to be protected. There are easy things we can do to ensure our information is safe from those wishing to steal it.

Recognize & report phishing

Most successful online intrusions result from a recipient of a "phishing" message accidentally downloading malware or giving their personal information to a spammer. Do not click or engage with these phishing attempts. Instead, recognize them by their use of alarming language or offers that are too good to be true.

Report the phish and delete phishing messages.

Use strong passwords

Simple passwords can be guessed. **Make passwords at least 16 characters long**, random and unique for each account. Use a password manager, a secure program that maintains and creates passwords. This easy-to-use program will store passwords and fill them in automatically on the web.

Turn on multifactor authentication (MFA)

Use MFA on any site that offers it. MFA provides an extra layer of security in addition to a password when logging into accounts and apps, like a face scan or a code sent by text.

Using MFA will make you much less likely to get hacked.

Update software

When devices, apps or software programs (especially antivirus software) notify us that updates are available, we should install them as soon as possible.

Updates close security code bugs to better protect our data.

Turn on automatic updates to make it even easier.

AUTOMATIC UPDATE IN PROGRESS ...

Taking these steps helps
Secure Our World.

We can all help one another
stay safer online, so share these tips
with a family member or friend!

cisa.gov/SecureOurWorld
